

Water Rescue Two Technician Instructor Skills Course

Code: YWR2I

Who should attend

Emergency Services personnel who may be called upon to train personnel at a level equivalent to the Outreach Water Rescue Two Technician.

Course/Programme Requirements

- Satisfactory completion of the Outreach 'Water Rescue Two Technician' course within the previous 2 years with verified maintenance of those skills.
- Have verified maintenance of Outreach Water Rescue One Technician skills.
- Compliance with Outreach Training Progression Policy and additional experience of the water environment and trainer/assessor qualifications in accordance with the recommendation of the Fire Service manual and Outreach Training Progression notes.
- Be fit for full operational duties in accordance with FRS requirements for this role.
- Have received formal training in Health & Safety at Work, including Manual Handling.

The module will involve students undertaking potentially strenuous training in and out of water.

Personal equipment should include appropriate all weather outdoor clothing, footwear and gloves. All specialist equipment required is provided. Service uniform is not required.

Contact Outreach Rescue for further information including detailed course content, assessment process and progression notes.

All course nominations must be followed by a declaration of conformity with the above from their organisation.

Aim

To provide the framework of instructional skills and associated knowledge and understanding to instruct others in a level equivalent to the Outreach Water Rescue Two Technician core skills. The module will involve students undertaking in-water training.

Outcomes

After successful completion of the course, the student will have a firm foundation of knowledge and skills and should be able to:

- Demonstrate the ability to plan, deliver, assess and review training events across a range of water environments covering topics within the Outreach Water Rescue Two Technician syllabus.

- Undertake risk assessments for delivering the above in a range of teaching environments.
- Apply basic knowledge of rescue PPE equipment as to its use, care and maintenance.
- Understand skills maintenance and development issues.

Delivery Method

By lectures, practical exercises and scenarios. A course manual is issued.

Assessment/Certification/Accreditation

Core course content is assessed by a combination of continuous, scenario based, a presentation and written assessment to inform the student's development indicators. Results centrally recorded and entered in a personal Water Rescue Record of Performance.

Students will receive a personal Record of Performance with development plan guidance. They must then be supervised during a development phase prior to final work-based (or other) assessment and full deployment.

Venue

Outreach, Llanllechid, Bangor, Gwynedd, LL57 3HY.
