

OUTREACH RESCUE PRE COURSE INFORMATION

OUTREACH COURSE:

Rope Rescue Level Two Supervisor Reassessment

Dear Candidate,

In preparation for the above course at Outreach Rescue you will need to read the following information: -

- **Course Introduction**
- **Essential and Recommended Reading**
- **Course Information**
- **Diploma / Certificate in Specialist Rescue**
- **Equipment and Clothing**
- **Getting to Outreach**
- **Accommodation and Meet and Greet Times**

You must complete the following forms and return to Outreach at the address below as soon as possible to reach us a minimum of **one week** prior to the course: -

- **Pre-requisite Confirmation** (A key requirement of our training policy is for candidates to have maintained their skills through regular activity.)
- **Medical Form** (This also includes information on any dietary requirements.)

Both documents need to be processed **before** you attend an Outreach course.

If you have difficulty returning the above documents or have any questions please do not hesitate to contact us.

Thank you for your cooperation.

Kind Regards

The Outreach Team

This document should be read in conjunction with the Fire Service College Course Data Sheet and the Training Progression Notes attached.

COURSE INTRODUCTION

The **Rope Rescue 2 Supervisor** course requires participants to build the existing skills, knowledge and understanding of the **Rope Rescue 1 Operator** course. Additional skills and knowledge will be taught that will allow participants to lead and supervise a variety of rope rescue incidents, including working from man-made structures and natural features. Stretcher handling skills and more complex rope rescue systems are covered to further develop the “toolbox” required to deal with a range of incidents. The course aims to assist students to lead and supervise a variety of rope rescue situations.

ESSENTIAL READING

The following documents are considered as **essential reading** for successful completion of the course:

Outreach Rope Rescue 1 Operator Course Manual and notes (or equivalent if direct entry) You should be fully familiar with the content of the course (or equivalent)
Outreach Rope Rescue 2 Supervisor Course Manual and notes These will be provided on the course.

RECOMENDED READING

We would encourage you to constantly broaden your understanding so that you can appreciate the range of operational issues you might encounter. A number of articles are available to read and we would encourage reading as widely as you can.

Technical Rescue Magazine (www.t-rescue.com/cgi-bin/hotlinks/morelinks.cgi?category=38&page=1)
T Moyers Testing Page <i>The Rescue Physics presentation is worth reading for the technically minded.</i> (www.xmission.com/~tmoyer/testing/)
Working at Height Safety Association <i>A number of technical notes relating to working at height.</i> (www.wahsa.co.uk/component/option,com_docman/task,cat_view/gid,5/Itemid,8/)
You should try to obtain a copy of the Fire Service Vol 2 Safe Work at Height 2006, ISBN (10) 0 11 341312 2 ISBN (13) 978 0 11 341312 6 Available from TSO (www.tsoshop.co.uk/bookstore.asp?FO=1160523&ProductID=0113413122&Action=Book)
Safe Working at Height The Work at Height Regulations (2005) as amended – a brief guide (www.hse.gov.uk/pubns/indg401.pdf)
Safe Working at Height Inspecting fall arrest equipment made from webbing or rope (www.hse.gov.uk/pubns/indg367.pdf)
LOLER Regulations <i>Simple guide to the Lifting Operations and Lifting Equipment Regulations 1998</i> (consider the application of LOLER to rescue incidents where you are lifting person loads) (www.hse.gov.uk/pubns/indg290.pdf)

YOUR OWN ORGANISATIONS DOCUMENTS

You should review your organisation's documents that relate to working at height and rope rescue. Documents you may encounter include:

- Risk Assessments (generic, site or task specific)
- Safe Systems of Work or Method Statements
- Internal training guides or handbooks for working at height
- Standard Operating Procedures

COURSE INFORMATION

On the course you are going to become familiar with a range of equipment used for working at height. Each type of equipment has a manufacturer's instruction for use and it is good practice to read up on the equipment before using it. There are numerous manufacturers' websites that contain information and you should visit them to improve your awareness of what equipment is available to use and its potential application.

You should have maintained the Rope Rescue 1 Operator skills (or equivalent) and be capable of contributing to the building of rescue systems as part of a team. Verification is required that skills' knowledge and understanding have been maintained. (Confirmation of this will be requested from your organisation prior to the course).

DIPLOMA CERTIFICATE IN SPECIALIST RESCUE CERTIFICATE

There are options for utilising successful completion of this course to register it towards a Coventry University Diploma / Certificate in Specialist Rescue or contribution towards other higher education awards. Further information will be provided at commencement of the course. However for a full module descriptor in advance, go to www.coventry.ac.uk - CU Portal – Module Information Directory – Business, Environment and Society – Geography, Environmental Science and Disaster Management – Get Modules. Then click on 260GED for full diploma module information or 268GED for half-module – View Module Information

EQUIPMENT AND CLOTHING

This course is outdoor based and you must provide gloves and boots suitable for rope working. There is no requirement for any other specialist clothing or equipment – this will be provided for the duration of the course. The weather in North Wales can be wet, windy and cold when outside, so bring warm waterproof clothing with you.

There is no requirement to bring fire kit with you.

GETTING TO OUTREACH

You can download directions and a map of how to get to Outreach from our website (www.outreachrescue.com). If you are using GPS navigation systems to get to Outreach via the A55 North Wales Coast road, then it is best to go via Junction 11 on the A55. In the past GPS navigation systems have taken people via the shortest route and this means they are taken along very narrow single track roads.

ACCOMODATION - MEET AND GREET TIMES

Accommodation has been reserved for you on the Sunday evening prior to your course commencement – please arrive between **7pm and 10pm**.
