

# Flood Awareness Seminar

## Who Should Attend:

---

This seminar is for personnel who are required to advise or command flood incidents at a tactical or operational level.

## Pre-Requisites or APL:

---

- ✦ In-date level 2/3 Incident Command or equivalent.

## Seminar Requirements:

---

- ✦ Beneficial to have access to Resilience Direct and the Met Office Hazard Manager online facilities. Delegates should be familiar with the DEFRA flood rescue concept of operations and their own local flood response plans.

## Aim:

---

To raise awareness of how incident commanders can identify, select, develop, and manage appropriate multi-agency tactical and operational plans in flood environments. This includes risk identification, asset response and management and command, control, coordination, and communication. Interoperability is also a key focus.

## Outcomes:

---

After successful completion of the seminar, the student will have a firm foundation of knowledge and should be able work alongside water and flood incident managers to direct a successful multi-agency flood response.

## Duration:

---

1 day with 7 hours contact time

## Ratios:

---

Trainers 1:12 Students

## Delivery Method:

---

This seminar includes pre-course reading. Training is delivered through interactive classroom discussion and both planning and response table-top exercises. The course utilises recent case studies and focuses on shared experiences. Where possible exercise scenarios are based on local risks.

## Equipment:

---

This course is predominantly classroom based and no specialist equipment is required. It is advised to bring a laptop.

## Assessment:

---

There is no formal assessment for this seminar.

## Certification:

---

Students will receive a digital Outreach Rescue certificate of attendance. Attendance is recorded on a personal record of performance and recorded on the Outreach Rescue Database.

Certification is valid for 3 years.

## Progression:

---

Reattendance is recommended every 3 years.

## Venue:

---

This course can be delivered at any premises with good classroom facilities, including Wi-Fi connectivity.

Please contact us to discuss the possibility of delivering this course at your premises.
