Description

The Mud Rescue course is tailored for individuals involved in water rescue responses requiring applied specialist techniques for mud rescue. It covers theoretical elements from DEFRA MOD 3 training and provides hands-on practical training in various methods of rescuing individuals or small animals from mud using specialist rescue equipment.

Compliance:

DEFRA Mod 3, NFCC Rescue Boat Code Mod 3

Previous knowledge:

In-date DEFRA Mod 3 compliant award (issued within 3 years)

Requirements:

Age 18+. Delegates must be fit for physical training requiring the delegates to be competent in all Water Rescue Technician (Mod 3) skillsets.

Progression:

Recertification & Refresher training is recommended every 2 years by means of re-attending this course.

Theoretical elements:

- Lectures and classroom work covering theoretical aspects of mud rescue, including specific risks, selection of specialist rescue equipment, and self-rescue techniques.

Practical elements:

- Practical sessions and scenario-based training focusing on hands-on application of mud rescue techniques using specialist equipment and mud self-rescue techniques.
